Vimy Ridge Anniversary Observed by Divine Service in St. Paul's Church

Local Branch Canadian Legion Represented by Members at Inspiring Service.

On Sunday evening, Rev. Roy Taylor, pastor of St. Paul's church, delivered an address on the sacrifices and the faith of the men of the Canadian Corps who stormed Vimy Ridge on Easter Sunday in 1917, and gained an imperishable place in Canadian and Empire history.

Speaking as a member of the Canadian Expeditionary Force, with over four years service, he appealed to his audience to maintain that spirit which overcame the difficulties of the dark days of the war, the trials of the battlefield, and the spirit of sacrifice of the women whose men went forth to serve their country.

His address was based on the text from Judges 8:2—"Is not the gleaming of the grapes of Ephraim better than the vintage of Abiezer?" These were the words of Gideon to the quibbling, cold-blooded Ephraimites. It was a gracious and beautiful reply.

The trumpet, the pitcher and the lamp in the hands of Gideon's three hundred had led to a great victory, and so he likened the exploits of the Canadian Corps in their attacks and capture of Vimy Ridge.

Referring to the report that there was a likelihood of war pensions being reduced or taken from civil servants in receipt of salaries equal to or more than their salaries, he considered it a downright shame that war pensions should be interfered with, for while men were overseas fighting and suffering for \$10 a day, many others, able-bodied, were remaining at home drawing big salaries and profiting from the war.

His address at times bordered on the humorous, when he recounted a few reminiscences dear to the hearts of the veterans.

On Making Sales and Telling the Public

The law of averages works in selling, no matter what it may be. The more persistent the effort the higher the average. Sales cannot be made by waiting for the public to find out for themselves what you have to sell. You must tell them and invite them to try.

An instance of this came to notice this week. A certain article was purchased which was not on sale in any store in town. After this sale had been made from a neighboring town, the query was raised, why was it not purchased here? The answer is that there was not one for sale here, and the agency for this particular article had been declined by at least one dealer in town. To make sales you must tell people know, and—you must have the goods to sell.

of the great khaki fraternity. Though war had its horrors, yet it also carried many pleasant memories of real comradeship such as never experienced in civilian life.

The pulpit was draped with Union Jacks, and the hymns were in keeping with the service, in which all heartily joined. The Legion members occupied the centre pews of the church.

Following the service, the Legion members at an impromptu meeting passed a vote of thanks to Mr. Taylor for his inspiring address; and "the boys" felt that the anniversary of Vimy had been very fittingly observed.

Legion Smoker

On Saturday evening a smoker was held in the Oddfellows hall by the Canadian Legion. Several of the members sang, the rest joined in the choruses; Walter Bobbitt appeared in his old khaki uniform and tin hat, and a sketch was put on by Col. Barnes, Maurice Cooke, Arthur Graham and Sidney G. Mahon, of Winnipeg, and the visit of these officers will stimulate renewed interest among the Girl Guides of the district. It has been suggested that the gathering be held in the opera house, but the uncertainty of having it ready makes it necessary to defer definite announcement as to place of the rally.

DRESSING UP THE NEIGHBORHOOD

There's a lot of "cheer-up" in a can of paint. Put a bright coat of paint on a house and the whole neighborhood perks up with a smile, especially if it's painted with high-grade paints from

CROWS NEST PASS TRUSTEES ASSOCIATION MEET

J. M. Allan of Coleman Appointed President — W. H. Chappell, Secretary.

Jas. M. Allan, chairman of Coleman school trustees, and George Hope, attended the meeting of Crows Nest Pass Trustees Association in Blairmore on April 6. Mr. Allan was appointed president of the association in succession to W. H. Chappell, Jr., whose active work has been largely responsible for the interest taken in the association.

Among matters discussed was adjustment of teachers' salaries throughout the district. It was ruled that such adjustment should be governed by the individual boards of the district.

The next general meeting of the trustees association will be held in Coleman in May.

DRASTIC REDUCTIONS PROPOSED BY THE CALGARY SCHOOL BOARD

Calgary school board in order to relieve its financial difficulties, is proposing still further drastic cuts of salaries, ranging from 20 to 30 per cent. Elimination of all social services, domestic science, physical and manual training, music and supplying sport equipment, the closing of Commercial and Technical high schools, it is estimated will make a total annual reduction in expenditures of approximately \$157,000. Necessity which knows no law, is compelling Calgary school board to take these severe measures in order to enable it to keep its schools open.

GIRL GUIDES OFFICERS COMING

Mrs. R. P. Borden, district commissioner of the Girl Guides, Crows Nest Pass, returned last week from Edmonton, where she had spent two or three weeks, during which time she attended the annual convention of the provincial Girl Guides Association. Lady Rodney, former commissioner, has resigned, and is succeeded by Mrs. Pardee, of Edmonton. Mrs. Pardee will make an official visit to Coleman and Blairmore on May 2, when it is planned to hold a gathering of Guides and parents in honor of her visit.

Services for this week are as follows: Good Friday 10 a.m., children's service; 12 noon, three hours meditation on the "Seven last words from the Cross"; Mrs. E. E. Cranston, of Bellevue, will sing the solo, "O Lord, Correct Me."

BUY A TICKET NOW!

Your last chance to buy a ticket for the electric bridge table will be on Easter Monday, at the whist drive in St. Alban's parish hall. The stubs will be placed in a cylinder, and to ensure a thorough shaking up, will be revolved a few hundred times. The drawing will be made by a disinterested party, the first number drawn from the cylinder taking the prize. Tickets may be obtained at Rushton's store at Mrs. Ferguson's confectionery at Huffman's barber shop, 25c each.

Corbin Collieries are reported to be working on much slacker time than has been experienced for several years, and the prospects are not very bright for the coming months.

Estimates Severely Cut For Forestry Protection Service in Alberta

Provincial Government Appropriates Only \$18,000 for Fire Protection Service on Reserves.

Despite the value of Alberta's forest reserves, legislators at Edmonton fail to realize the importance of making adequate provision for their protection.

The destructive demon, fire, will break out, no matter how vigilant forest rangers may be. There are always careless campers; lightning hazards and danger of fire from many uncontrollable sources which threaten the forests, and with their destruction the scenic attractions of Alberta are spoiled for many years.

In this immediate district, two years ago a destructive fire raged for several days, having been caused by the spread of fire from British Columbia. Over \$11,000 was spent in wages to fire-fighters and supplies. Last year though fire again broke out from an undischarged source, about \$1,000 was spent in extinguishing it.

\$18,000 is a very small sum to set aside for furnishing protection to such a valuable asset as the forest reserves of the province, but the difficulty is to increase on private farmer members the value of the forests from which most of the rivers of Alberta derive their water supply. Until there is a greater forest consciousness developed in the provincial legislature, Alberta's valuable natural resource, the forest reserves, will suffer for lack of adequate protection.

Telephone lines, forestry trails, small bridges where necessary, must be maintained to give ready access to fires, yet expenditures for this service are so closely watched that very little, if any money has been allowed in the past two years for this purpose.

GOOD FRIDAY AND EASTER SERVICES AT ST. ALBAN'S

Services for this week are as follows: Good Friday 10 a.m., children's service; 12 noon, three hours meditation on the "Seven last words from the Cross"; Mrs. E. E. Cranston, of Bellevue, will sing the solo, "O Lord, Correct Me."

Easter services: 7 a.m., holy communion; 9 a.m., choral communion; 2:30 p.m., children's service; 7 p.m., evening song and address.

Mr. W. J. Harris will play a violin solo at the evening service, and the choir will sing the anthem, "The Lord is My Shepherd."

RED TRAIL PUBLICITY

A meeting of Boards of Trade representatives from Lethbridge west to Nelson is to be held in Fernie on Saturday, April 22, at 8 p.m., to discuss plans for Red Trail publicity for 1933.

Members of Coleman board desiring to go should advise W. L. Rippon, secretary, or H. T. Halliwell, president.

Buyers, in greatest numbers, go where they are invited to go.

EMPIRE DAY PROGRAM BY CAMERON SCHOOL

Under Miss Yuill, the children of the above school will stage their annual program in the arena on May 23 at 6 p.m. to 7:30, prior to the opening of the carnival. The public will be welcomed, and one side of the rink will be reserved for the audience. A feature of the program, Miss Yuill states, will be the Maple dance, in addition to the patriotic numbers. This annual program has always proved highly entertaining.

ADANACS BASKETBALL GAMES

On Friday, April 7, the Adanacs played hosts to the Natal Pirates. A basketball game was played in the opera house which the Pirates won by 35 to 30. Tiny Kral, the mighty centre man, accounted for 28 points. The Adanacs were away off on their shooting. Then followed a game between Michel high school and a local boys team. The home town boys made good by 15 to 12. This time it was the visitors shooting that was poor.

Following the games the Adanacs entertained the visitors in the Oddfellows hall, where a good time was reported to have been "had," regardless of the fact that the Michel boys were inclined to be shy and quiet (?) in their attacks on the oddies were as machine-like and voracious as their attacks on the Coleman basket earlier in the evening. The Tommy Causey made a step dance which almost brought down the house (into the store he followed) until they followed until midnight when "God Save the King" closed the evening.

Summary:
28 Kral c. Price f
7 Fish f. Emerson f
9 Venz f. MacDonald c
0 Brown f. Atkinson c

Violin Recital Gives Pleasure to Pupils and Parents Mon. Evening

Selections and Descriptions of Compositions Given in Interesting Style by W. J. Harris.

On Monday evening, April 10, in St. Alban's parish hall, William J. Harris, A.L.C.M., (gold medalist) entertained in a very pleasing style by violin recital, which included in its program addresses on the Origin of Music, with selections played by Mr. Harris, by the composers Borowski, Drigo-Auer and Drda.

Handel's Sonata IV, was used as the basis of his address on the Psychology of the Sonata form, with the four movements of that sonata.

The personality of Kreiser was most interestingly described in the biographical talk by Mr. Harris, prior to playing "The Old Refrain," "Schon Rosmarin" and "Liebesfreud," all compositions of Kreiser.

He stated: "Kreiser reaches the heart; but he does more than that. Most of us can reach the heart by some means or other, he satisfies the mind, and his friends say that the well-spring of his success is the nobility of his character and the unselfishness of his life. What the Kreislers save they spend to relieve distress, and they are particularly sympathetic to the needs of children. During the war it is well known that they supported hundreds of artists of all nationalities who were stranded abroad."

The accompaniments were played by Mrs. M. Clifford, who contributed 4 in no small measure to the pleasure of the recital. Following the recital, 6 refreshments were served by the ladies, and a social half hour was spent, 0, bringing to a close a very pleasant evening in which all felt the benefit of the enlightenment of music above the ordinary cares of every-day life.

High Grade Nursery Stock

I have taken over the Agency of one of the largest Nursery Houses in Canada, and have the following list of Shrubs, Trees, etc., for sale at a price never before offered.

No freight or express to pay on any of the following list:

Usual List	My Price
Price to you each	
Kind	
Pink Honeysuckle	\$1.00 48c
Morrow Honeysuckle	1.00 48c

Nature Cannot Be Defied.

It is recorded in Holy Writ that God created man and gave him dominion over all the earth, over the fish of the sea, the fowl of the air, over every living thing that moveth upon the earth; in a word, over every thing wherein there is life, including all fruit and seed bearing trees and plants. In his conquest and control of these things man has waged, and must continue to wage, a never-ending battle, and he has waged it, on the whole, successfully and with increasing efficiency as the years and centuries have come and gone.

Enforcing his dominion over every living thing, and as a means of exercising control over them and to secure for himself the maximum of benefits and comforts therefrom, man has gone further afield and assumed control over many of the forces of nature. He has overcome the obstacles of mountains by driving tunnels through them; he has bridged great streams and gorges; he has dammed mighty rivers to obtain power; he has delved into the bowels of the earth for fuel and minerals to serve him; through his inventive genius he has overcome the handicaps of distance and space, making both the sea and the air serve his purposes.

Still not content, man has attempted to control other laws of nature over which he was not given control and which, despite all his efforts, are ever and will be beyond his control. As a result of jealousies and rivalries developing as mankind increased in numbers, men quarrelled and fought among themselves. They divided into tribes, and then into nations, developing distinct national traits of character and ambitions, each selfishly endeavoring to secure to itself a larger measure of control over the earth than that enjoyed by their rivals, and constantly warring with each other to obtain and retain such control.

As time passed, and life became more and more complex, this struggle for national domination, national existence for many, became more intense, but, with the progress of education and civilization it developed new forms, while not altogether abandoning the old idea of the application of physical force. Thus it came about that man made his great mistake in that he attempted to control forces he cannot control and which it was never intended he should control.

The world was created for man—the whole world for the whole race of man. Its climate was varied, and with variations in climate there is variation in products and methods of living, each part having something to contribute to the welfare of man in other parts, and all going to make up a completed whole. But man developed narrow tribal and nationalistic instincts and ambitions, lived himself off in groups into compartments, and sought to live unto himself, self-satisfied and self-contained, apart from the rest of the world. Such a mode of living might succeed for a time, but man was simply punishing himself, denying himself many of the benefits and comforts which an untrammelled nature intended he should possess and enjoy. The whole race of mankind is now paying the penalty for that great error.

This primary error of man, and man set his ingenuity to work to overcome the difficulties he had himself created. Having denied one great law of nature he thought to correct that mistake by defying other laws. He conceived the mistaken idea that he could, by the mere enactment of his own man-made laws, substitute artificial political boundaries for the natural boundaries as defined by geographical facts. He had changed the course of rivers, why could he not change the streams of man's intercourse, communication and trade with each other? Why could he not change great areas of the world's surface intended by nature for agricultural pursuits into great manufacturing centers? Where nature designed that communication and trade should flow north and south, with one section the complement to the other, why should not man order otherwise and force communication and trade to flow east and west in order that it might be confined within certain narrow political divisions set up by himself in defiance of nature's laws?

Man thought he could do it, and he proceeded to try, with the result that the whole race of man is today mired in a morass of its own making. All men and all nations are floundering with no solid ground under their feet. In their difficulties and desperation they still blindly rely upon the enactment of one man-made policy after another, each further defiance of nature's immutable laws, to get them out of their trouble, instead of frankly acknowledging their initial mistake, wiping out their narrow nationalistic policies, and allowing the laws of nature to operate freely without restriction or attempted control by man, who, after all, cannot control them.

But instead of adopting such a sane and sensible attitude; instead of admitting that the laws of nature are too powerful a force to be ignored and defied, we find a group of political thought insisting in all countries that the world must persist in the policies in which it has become entangled, making them still more restrictive and more all-embracing of the activities of man. On the other hand, there is another group of political thought which, frankly recognizing the blunders of the past, insists that the only way out is to commit an even greater blunder than has yet been committed, and that is to largely deprive man of his individuality, destroy his God-given powers of initiative and self-government, and submerge him in the political State of which itself will direct, control and order him in all that he may do and how he shall live.

Man was not created to be so ordered and controlled. He was given a body, a mind, a soul of his own. He was to have dominion over all things; not things, even a State created by himself, to have complete dominion over him. It has been tried before in this old world's history and it failed, as it always will. It is being tried again today under Fascism in Italy and Germany, under communistic socialism in Russia, under other forms of despotic government in so-called less enlightened countries. It may abide for a time, but it will fall sooner or later. Any it will fall because man is an individual, with a mind and soul of his own. His initiative will not be denied. Man will eventually get back to recognition and observance of nature's unchangeable laws. Then, and then only, will he again achieve happiness and contentment.

Britain Rich In Minerals

Practically Every Known Metal Is Found In Empire

The news that the vast bends of iron ore in Northamptonshire are to be worked on a great scale calls to mind the fact that Britain is still one of the richest metal-bearing countries in the world. This remains true despite the fact that during the past half-century, the total value of minerals raised in Great Britain was about three thousand five hundred millions of pounds. Of this, coal represents about two-thirds; the rest comprises nearly every metal or mineral in common use and a number of the rarer ones. Cornwall and Devon still produce tin. Immense quantities of rich tin ore lie below the surface, but so far below it that at present the mines cannot compete successfully with the shallow tin dredgers of Malaya and the open workings of Bolivia. Cornwall, too, has copper, antimony and arsenic, to say nothing of radium. There is a reef of gold-bearing rock under the Forest of Dean which contains enough gold to pay Britain's national debt. Under present conditions, however, it does not pay to work it.

Scotland At Grain Show

Scottish Entry For Grain Exhibition At Regina

An entry of high quality oats, from a farm owned by same family for over 60 years, will be a challenge to the oat farmers of Saskatchewan at the forthcoming World's Grain Exhibition at Regina.

Officials of the exhibition announced that an entry has been received from Mrs. Maggie Eccles, of Far Pimmore, Maybole, Ayrshire, the sample being registered in the oat section.

Mrs. Eccles occupies a 230-acre farm close to the birth place of Robert Burns, the poet, and the farm has been in the same family for over 60 years, special attention being paid to oat production.

A long list of exhibition successes over a number of years is Mrs. Eccles' record. In 1931 she won the gold medal for grain at the national stock and grain show at Edinburgh.

Favor Sterilization Plan

Stand Taken By Lieutenant-Governor Of Ontario Is Commended

The Toronto Local Council of Women and several clergymen, joined in expressing appreciation of the stand on behalf of sterilization of the mentally unfit taken by Dr. Herbert A. Bruce, Lieutenant-Governor of Ontario.

On recommendation of Mrs. R. O. Smythe, mental hygiene convener, the local council of women voted Dr. Bruce acclimating his stand. Mrs. Smythe said what the province wanted was permissive and selective sterilization of the mentally unfit.

Rev. Canon Lawrence Skely, Anglican, said there were "two or three thousand feeble-minded children in Toronto. We are all behind the Lieutenant-Governor and are proud that he has had the courage to speak his mind for the welfare of the people."

Sugar Elevators

Raymond the First Place In Canada To Adopt This Plan

Sugar from this famous sugar beet growing country will be stored in elevators in the same manner grain is stored. Raymond, Alberta, is the first place in Canada to take such a step.

The Canadian Sugar Factories, Ltd., announced that they would build four elevators at a cost of \$50,000 for the purpose of storing the sugar produced in the Raymond area. Each elevator will be 30 feet in diameter and 125 feet high.

Man Rides Sharks

Unarmed, Roy Wilson caught three sharks, from six to nine feet long, at Brisbane, Australia, recently. They had entered a bathing pool during a high tide. Wilson dived into the water, swam up to one of the intruders and scrambled upon its back. Hooking his legs under its body, he "rode" it as it dashed up and down the tank. The shark finally gave up the battle through sheer exhaustion. The others were caught in the same way.

Worthy Of Consideration

Banning Jazz From Radio Broadcasting Is Good Idea

Chancellor Hitler has banned jazz music from the Berlin broadcasting station on the ground that it is not a cultural factor.

The idea is worthy of consideration elsewhere than in Berlin. The childish turn-of-mind of the jazz orchestra, its senseless dissonance, its blaring and bleating and blatancy, combined with its horrors of cacophony that are enough to make all dead composers of melody turn in their graves, stamp it as a production of the lower orders of human intelligence.

Jazz has enjoyed a long—a far too long—life as a popular craze on this continent and in Europe. But from all quarters reports have been pouring in for a year or so to the effect that its popularity is on the wane; and there is ample evidence that this is the case. Such a patent proof of a return to cultural ideals is welcome on many grounds, but on none more vitally than that it presages the abolition from the home of one of the most insane, discordant and inartistic forms of noise yet conceived by humanity.—Montreal Star.

British Warship Condemned

Last One To Go Into Action Solely Under Sail

After 84 years' active service the old "Arcthus"—the last British warship to go into action solely under sail—has been condemned by the Admiralty Surveyors. Since 1874 the "Arcthus" has been used as a training ship at Greenwich, under the management of the Shaftesbury Homes and more than 12,000 boys in these reformatory institutions have passed through the ship into naval or mercantile marine service. The "Arcthus" is to be replaced by the "Peking", a four-masted steel barque, built in 1911, and an appeal is issued for \$40,000 to pay for the purchase, alteration, and equipment of the new vessel. The appeal is sponsored by the Prince of Wales as president of the Shaftesbury Homes.

Good Ads Always Pay

Give Their Daily Message To the Buying Public

"Good advertising will sell goods even in bad times," says Louis Panzenbaum, production manager of H. H. Macy & Co., the famous department store of New York. The Macy executive have proved it to their own satisfaction. In their recent anniversary sale they found that well planned advertising brought crowds to the big store.

Experienced executives of successful stores know that "good ads always sell." That is why they keep hammering away, telling their message to the people day after day.

European scientists have discovered that some of the commonest fresh water fish, including trout and minnows, can change their color according to background.

A total of 1,102,166 motor vehicles were registered in Canada last year, of which over half or 524,270 were in Ontario.

Was So Short Of Breath Could Not Lie Down To Sleep

Mrs. P. J. Chernoff, Shuercroft, B.C., writes: "I had been so troubled with shortness of breath I could not lie down to sleep."

"I couldn't do any hard work, or climb the stairs, and had nervous and smothering feelings, and became very weak."

"I tried all kinds of medicine, but could get no relief until after I had taken three boxes of Milburn's Heart and Nerve Pills and since then I have felt better in every way."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

Must Be Best Grade

Only Way Canadian Salmon Can Hold Empire Market

The salmon industry is an important British Columbia industry. It has yielded over \$18,000,000 a year. About 85 per cent. of its output goes into the export market, where it must meet with the keenest sort of competition from American, Russian and Japanese salmon. It is of first importance that the quality of the fish be maintained and the canners have already received stern warning from the Department of Trade and Commerce that offgrade salmon has been getting into the export trade. British Columbia salmon has been given a preference under the Ottawa treaties but preferences or no preferences, it can only hold its place in the Empire market if it can establish its merit.—Vancouver Province Cons.

Fame Rests On Comma

Doubt As To Whether Raleigh Introduced Smoking Into Europe

The will of Deigo, a son of Christopher Columbus, recently discovered in Spain, was first thought to cast doubt upon the generally accepted story that Sir Walter Raleigh first introduced smoking into Europe. This will, dated May 2, 1525, more than sixty years before Raleigh smoked his first pipeful of tobacco, disposed of a sum of money to a certain Antonio described apparently as "tobacco merchant of Lisbon." Now closer examination of this document causes scholars to believe that the clause reads, "Antonio Tobasco, merchant of Lisbon." The fame of Raleigh as patron saint of tobacco therefore seems to rest on the placing of a comma.

Honor Rolls For Herds

Seventy-Six Herds In Saskatchewan Receive Production Certificates

Honor rolls covering 76 herds in Saskatchewan have been issued during the past week. Hon. W. C. Buckle, Minister of Agriculture has announced. The certificates are for the 1932 production year.

Regulations governing the issuance of the certificates require a minimum average production per cow of 300 pounds of butterfat per year, with the minimum number of cows per herd set at five. The first eight herds on the list all averaged over 400 pounds of butterfat and there were 24 herds with an average production of above 350 pounds of butterfat.

Fallen At Last

Sir Arthur Samuel, M.P., told an audience of horticulturalists at Knapp Hill, Surrey, England, that on the principle that "an apple a day kept the doctor away," he had eaten 80,000 apples during the past 40 years. He had eaten five apples a day. Then he went to bed with an attack of bronchitis.

A modern stabilized "steamship" must be somewhat like the rest of us. It has lost its roll.

More than 8,200 applications for patents were filed in Czechoslovakia last year.

Graded beef is continuing to increase in popularity with Canadian consumers, sales for 1932 of 21,748,000 pounds showing an increase of four and one-half million pounds over the previous year.

Thyme, savory marjoram, sage, mint and other herbs are now being grown in a small way in British Columbia.

London motion picture theatres give 10 per cent. of their Sunday receipts to charity.

Eleven Nations Are Invited By Roosevelt To Economic Parley

Washington.—Canada and Mexico, Saturday, April 8, were invited to send personal representatives for economic conversations with President Roosevelt, bringing to 11 the number of nations invited and completing the list.

Those invited comprise Canada, Great Britain, France, Germany, Italy, Japan, China, Argentina, Brazil, Chile and Mexico.

In every case the president expressed a desire to talk with the chief of the government if possible and, failing that, with one of his trusted ministers.

The latest invitations were extended orally to the Canadian and Mexican envoys today by under-secretary William Phillips of the state department.

Meanwhile definite word was received in Washington the World Economic Conference will be held in London about June 15.

The great convocation, on which hopes of nations are centred, is expected to meet within a week or so of that date.

Personnel of the American delegation is already under consideration by President Roosevelt.

Name of Bernard M. Baruch, New York financier, has been heard in some quarters as a possible member.

It was said authoritatively that war debts are not on the economic program which the United States will present in the Washington conversations, although the matter of revision of those controversial obligations, may be taken up incidentally with Mr. MacDonald, as the president has agreed to hear the British case.

Lift U.S. Gold Embargo

President Roosevelt To Permit Free Exchange Under License

Washington.—President Roosevelt ordered the return of all gold over \$100 held by individuals to the federal reserve system before May 1.

In the same executive order the president authorized the secretary of the treasury to issue licenses permitting the use of gold in necessary domestic and foreign trade transactions.

For violation of the order the president decreed a maximum fine of \$10,000 and imprisonment of 10 years, or both.

The order was issued to get such gold as is still in hoarding and to ease the national embargo to permit legitimate transactions under federal license.

The president will continue the firm executive hold on the gold supply of the United States to prevent foreign raids or domestic hoarding, but otherwise the gold embargo will be lifted.

By the order the secretary of the treasury is authorized to permit its free exchange again under a licensing system.

Boat Space Arranged For Cattle Export

Canada Expects To Ship 45,000 Head To United Kingdom

Ottawa, Ont.—The fact that boat space has been arranged on the assumption Canada would ship to the United Kingdom 45,000 head of live cattle this year was given to the senate committee investigating the cattle situation by Hon. Robert Weir, Minister of Agriculture. Cattle prices in the United Kingdom may be expected to improve but not much before the end of May, Mr. Weir said.

Price Of Power

Three and Thirty Killed and 40,000 Wounded in Germany

Berlin, Germany.—Chancellor Adolf Hitler's already dictatorial political powers over Germany were vastly increased when the cabinet approved a law drastically curtailing the functions of the state diets.

Under this new law, governors will be installed in all of the states. These governors will appoint state premiers and will operate in closest contact with the government of the reich. They will be responsible to the federal administration alone.

The chancellor himself will assume the governorship of Prussia, appointing a mate of his own choice as premier. Hermann Goering, federal minister without portfolio, and Vice-Chancellor Franz von Papen are the most likely choices.

Chancellor Hitler has placed the price of Germany's "rebirth" at 330 persons slain, 40,000 persons wounded, and 100,000 driven from commercial life.

He declared outright to an audience of cabinet members, diplomats and newspaper correspondents that these were the figures which led to his rise to power.

The cabinet considered a plan for installing governors in all German states, with power to appoint the state premier and governors. Chancellor Hitler would become the governor of Prussia. Furthermore, titles and decorations will be reintroduced.

Hon. Frank Oliver Mourned

Crowds Attend Funeral Of Edmonton's Best Known Citizen

Edmonton, Alberta.—All Edmonton mourned when the funeral of its greatest citizen and the west's best champion—Hon. Frank Oliver, was held. Following a simple but impressive service in First Presbyterian Church at 2:30 p.m., a lengthy procession travelled to Edmonton cemetery where burial took place in the family plot.

Rev. A. R. Osborn pronounced the last earthly rites for the pioneer, statesman and publisher. There were four massed choirs.

Worship 'Planes

Hillmen 'In Mount Everest District Experience Change Of Heart

Purnea, India.—Hillmen of this country kneel and worship the 'planes of the British expedition which flew over Mt. Everest and Mt. Kanchenjunga. When the first 'planes were sighted the hillmen believed the mountain deities would punish them for incursion upon their realms, but having watched the 'planes in their remarkable ascents, they have experienced a change of heart and now worship them as they pass overhead.

Admiralty Court Planned

Ottawa, Ont.—First reading was given in the House of Commons to a bill sponsored by Hon. Hugh Guthrie, Minister of Justice, the purpose of which is to establish in Canada an admiralty court within the jurisdiction of Canadian statutory authority.

More Jobless In U.S.

Washington.—William Green, president of the American Federation of Labor, in a statement, estimated that 230,000 persons lost their jobs in March bringing the total unemployed "well over 13,000,000."

timation M. Herriot would be most acceptable to represent France.

The premier summoned M. Herriot and asked him to go. Although M. Herriot for some time has been deluged with work, the French believe he can be influenced to accept in view of the intimations he would be the most popular representative because of his debt stand.

"I did not accept immediately," M. Herriot said. "I asked for time to think it over."

Investigate "Akron" Disaster

U.S. Naval Court Will Make Searching Inquiry

Washington.—Minute and searching inquiry into the destruction of the U.S.S. Akron will be opened at Lakehurst, N.J., by a naval court of inquiry headed by Rear Admiral W. W. Phelps.

The court was ordered by Admiral William V. Pratt, chief of naval operations, after he and other high officials had heard a personal account of the tragedy from the only three survivors, Lieutenant-Commander Herbert V. Wiley, Richard E. Deal and Moody E. Erwin, enlisted men.

From naval craft searching hundreds of square miles off the New Jersey and Delaware coasts came reports of "no luck."

But Pratt sent out new orders to keep up the search until "there can be no bread of hope."

He ordered the submarine rescue ship "Falcon" to start dragging for wreckage. Pieces of the craft, he felt, might contain the vital clue to the cause of the crash, upon which the three survivors could shed little light.

Upon the court's findings will hinge, probably, the course to be followed by congressional investigations for which plans have been started. The wave of sentiment for abolition of lighter-than-air craft met a reaction in some quarters. A few congressmen spoke up against "hysterical" conclusion.

Peace Club Plan

Premier Mussolini, Of Italy, Says Plan Must Remain Intact

Rome, Italy.—While the French Government was drafting what reportedly is a revised peace project to submit to Premier Mussolini, of Italy, it has issued an advance notice that the fundamental provision of his "peace club" plan must remain intact.

Premier Mussolini's statement was issued through the grand council of Fascism, his highest advisory body, after a late night session.

It declared his recent suggestions, asking for collaboration by France, Germany, and Great Britain for peace, are the only bases on which "peace or equality" can be built.

At the same time, the conviction was expressed that "through the work of clarification already initiated," the plan will find in the leaders of the government "the same comprehension that already has been shown by the people."

The council said it felt sure that the formation of a new political atmosphere will make a fruitful international collaboration also possible in the field of economics.

Fellowship Awarded

Winnipeg, Manitoba.—W. T. Easterbrook, Winnipeg, of the University of Manitoba, has been awarded the Royal Bank of Canada economics fellowship, valued at \$1,000. His prize-winning essay was on the possibilities of a managed sterling currency as an international medium of exchange.

To Aid Livestock Men

Ottawa, Ont.—A general survey of foreign markets by a livestock export commission was suggested in the House of Commons by Earl Rowe, Conservative member for Dufferin-Simcoe. There was no hope for economic stability in Canada until agriculture regained its feet, declared the Ontario livestock breeder.

AS IL DUCE MET BRITISH PREMIER

Here is pictured the historic meeting between Premier Ramsay MacDonald, (left) of Great Britain, and Premier Benito Mussolini, of Italy, when they met recently to confer on a plan to preserve the peace of Europe. The photo was made at Il Duce greeted the British Premier on the latter's arrival at Rome from Geneva by plane. Following this meeting Premier Mussolini announced his Four-Power plan for a five-year disarmament holiday.

MAY RECEIVE APPOINTMENT

It is understood that Sir Frederick Sykes will shortly have completed his term of office as Governor of Bombay and that J. C. C. Davidson (above) Chancellor of the Duchy of Lancaster may succeed him.

Aid For Western Canada

Ottawa Assists Provinces To Meet Financial Obligations

Ottawa, Ont.—To help the four western provinces to meet maturing provincial obligations in New York, the Dominion Government in 1931 and 1932 advanced to them a total of \$15,422,568, according to a series of answers tabled in the House of Commons recently by the Minister of Finance.

These advances were as follows:

	1931	1932
Manitoba	\$3,180,883	
Saskatchewan	\$570,856	3,464,078
Alberta		3,142,586
Brit. Columbia	3,371,964	1,732,500
British Columbia has repaid \$5,106,915 on the foregoing advances.		
Saskatchewan, \$100,592, Manitoba, \$47,567, and Alberta \$586.39.		

Saskatchewan benefited to the extent of \$6,653,739.73 from the federal treasury in advances in 1931 and 1932 to assist that province in meeting provincial government expenses.

Inquiry Is Ordered

Cattle Export Trade To Be Investigated By Committee

Ottawa, Ont.—Decision to launch an inquiry into the export cattle trade by a committee of the senate means the cattlemen of Canada will have their problems thoroughly aired at the present session of parliament. A committee of the House of Commons is already busy investigating the milk trade and the dairy branch of the livestock industry.

The inquiry followed a proposal advanced by Senator D. E. Riley, of High River, a veteran cattlemen himself.

War Debt Easement

British Newspapers See Possibilities In Washington Meet

London, Eng.—Possibility of war debt moratorium when the next payment to the United States becomes due in June is seen by several British newspapers.

Desires for a moratorium were reflected in reports of President Roosevelt's invitation to Prime Minister Ramsay MacDonald to visit Washington and the latter's acceptance.

"The result of the visit cannot be otherwise than good," commented the Daily Mail.

Trouble Pending In Germany Over Move To Nationalize Churches

Would Amalgamate

Reported Express Companies May Decide To Join Forces

Toronto, Ont.—Toronto Telegram says a committee composed of Canadian Pacific and Canadian National Express Companies' officials has been formed with the purpose of determining whether amalgamation between the two companies can take place.

The Telegram continues: "This committee, which is composed of high officials of the general executive offices of both railroads, is already looking the ground over and it is rumored strongly progress has been made so far that the two companies are in agreement regarding the terms of amalgamation except on the point of retention of employees."

"As amalgamation of the express companies would result in a certain number of employees of both companies being laid off or forced to retire, it is believed the only stumbling block is the matter on what basis the men are to be laid off."

"One express company wants the basis of seniority to prevail, in which case 60 per cent. of their employees would be retained in comparison with 40 per cent. of the employees of the other express company."

Satisfying Beer

Decide That 3.2 Per Cent. Alcoholic Content Will Please United States Citizens

New York.—Beer brewed according to United States government regulations prohibiting any beverage more powerful than 3.2 by weight, will satisfy the average American citizen.

This was the opinion of some 150 newsmen, including a good mixture of Canadians and former Canadians, who gathered in the murky atmosphere of a large uptown New York brewery and, after copious drafts of the new brew, delivered their reassuring verdict a few hours before its sale becomes legal.

To Canadians, accustomed to the popular ales and lagers produced in Dominion breweries, the liquid did not seem quite so satisfying.

Ready To Talk Revision

Mussolini Willing To Change Four-Power Peace Pact

Rome, Italy.—Premier Mussolini announced he was willing to discuss any revision in his proposed four-power peace pact for Europe requested by France, but insisted its fundamental features must remain intact.

Mussolini's statement said his plan calling for united action by Great Britain, France, Italy and Germany and acceptance of the principle of revision of European frontiers was the only basis on which "peace or equality" can be built.

France, it was reported here, will insist that interests of her allies, Poland, Rumania, Czechoslovakia and Jug-Slavia be guaranteed.

Premier Bennett May Pay An Official Visit To Washington

Washington.—Unofficial report that Premier R. B. Bennett might soon pay an official visit to Washington were heard as plans were formulated for economic conversations between Prime Minister Ramsay MacDonald and President Roosevelt.

It was said, but not immediately confirmed, that the United States president had expressed to Hon. William D. Herriede, the Canadian minister here, a hope that Mr. Bennett could soon visit Washington.

Whether or not the desire of Mr. Roosevelt was that Mr. Bennett might time such a visit to coincide with the conversations he hopes to hold here soon after the middle of April with Premier MacDonald, was not known.

Mr. Herriede conversed with Mr. Roosevelt in New York some weeks ago. Following the meeting it was said matters of general interest had been discussed. Since then there have been suggestions here that reciprocal tariff arrangements would be advantageous.

A prompt acceptance was received

Berlin, Germany.—Disturbed by a National Socialist movement to reorganize the Lutheran church structure, "co-ordinating" it with the principles of Nazism, the supreme council of the Evangelical Church reminded Chancellor Hitler of his promise not to touch the country's independent churches.

The promise, said members of the council, was made in the speech with which the chancellor opened the reichstag on March 23.

A resolution saying that "the state and Chancellor Hitler are calling for the church, and the church has to have the call," was adopted at the closing session of the first national convention of the German Christian movement composed of Protestant Nazis.

The resolution was taken to mean the dissolution of the present church bodies and the revision of the Protestant church constitution by means of adapting the church to the state.

The Monarchist Kreuz Zeitung asked editorially whether the Roman Catholic Church also would be included in the proposed revision.

The convention opened to celebrate "God's victory over the Satanic forces of the underworld"—meaning the Nationalist revolution.

The convention demanded, among other things, the removal of such well known theologians as Otto Dibelius, Wilhelm Doehring and Georg Baurhartz.

The government has announced that a regulation forbidding persons to leave Germany without special police permission will not apply to foreigners. The regulation was invoked after numerous reports of flights of great numbers of Jews, with their possessions, from Germany.

Surtax On Higher Incomes

B.C. Bill Imposes Additional Tax On Amounts Over \$5,000

Victoria, B.C.—A bill providing for a sur-tax on higher incomes imposes an additional tax of one per cent. on incomes of \$5,000 and up to \$7,500, and is increased by one per cent. every additional \$2,500 up to \$47,500, when a maximum levy of 18 per cent. is reached, to apply on all incomes in excess of that amount.

By the terms of a bill to amend the Income Tax Act, every corporation will be compelled to furnish to the commissioner of taxation a return of all dividends and bonuses paid to its shareholders or members during the preceding calendar year. The return must be made on or before the last day of February.

Welcome Jap Training Ships

Victoria, B.C.—Twenty-one guns from the signal tower at Esquimalt backed a formal welcome to the Japanese training ships, "Iwate" and "Yakumo," when they arrived in Esquimalt harbor. Shortly after they dropped anchor more than 1,000 sailors were given shore leave and crowded the streets of the city.

Edouard Herriot Is Asked To Visit U. S. For Economic Talk

Paris, France.—Premier Edouard Deladier asked Edouard Herriot, President of the Senate, to visit Washington for the MacDonald-Roosevelt discussions, and it was generally believed M. Herriot would accept.

M. Deladier, during the day, received despatches from Paul Claudel, retiring French ambassador at Washington, conveying an invitation to France to send a delegation to Washington for preliminary economic talks. These despatches carried the

timation M. Herriot would be most acceptable to represent France.

The premier summoned M. Herriot and asked him to go. Although M. Herriot for some time has been deluged with work, the French believe he can be influenced to accept in view of the intimations he would be the most popular representative because of his debt stand.

"I did not accept immediately," M. Herriot said. "I asked for time to think it over."

St. Alban's Whist Drive and Draw

It was stated last week that admission tickets would be sold in advance for this event on Easter Monday. This was in error, for the committee in charge states that in order to avoid confusion by an advance sale, that tickets will be sold only at the door. Each person will also receive a numbered card, and corresponding numbers will be placed in a box for the door prize. Play commences at 8 p.m. sharp, and at the close of play the draw for the bridge table will be held. Scrutineers will carefully check the score cards, and present the prize to the winners of the whist tournament.

Coleman Players, directed by Arthur E. Graham, will present a one-act play, and to conclude the evening the ladies of the church will serve lunch.

ANNOUNCEMENT

Mr. Melville Anderson, of Anderson & McLean, sight specialists, Calgary announces his next visit, to G. R. Powell's, Coleman, on
Tuesday, May 2nd
20 years' experience and regular visits assure you of satisfaction in all optical work.

NOTES AND COMMENTS

The city of Fernie has been the subject of many newspaper stories since the decision was arrived at by the Crows Nest Pass Coal Co. to close Coal Creek mine because of it being found impossible, after strenuous efforts of the past few years, to operate it on a profitable basis.

Fernie business men, in order to retain business, have suggested that mines on this side of the inter-provincial boundary, should be penalized to bolster that city. One hesitates to comment in a critical vein on this suggestion, but it must be remembered that such a procedure would be just another demonstration of robbing Peter to pay Paul. To further reduce tonnage from these mines would cause as serious a situation to develop here as the city of Fernie has to contend with.

Mining towns are in the speculative class. In years past towns have flourished and passed away. Fortunately in those days there were opportunities of retrieving lost fortunes by seeking new fields. "Right in this district only a few miles from Coleman there is the skeleton of the town of Lillie; to the west there is Hosmer. Further west in British Columbia there are several ghosts of former flourishing towns. The depression cannot be attributed as responsible for Fernie's collapse. Its lumbering industry was a source of big revenue which had declined long before the depression set in. Coal tonnage was on the decrease in 1927. Fernie business men with every hope that the coal industry would continue indefinitely, staked heavily in investments in buildings and business enterprise.

But cities and towns, and with them the individuals comprising their populations, are all subject to the changing conditions which time brings. True enough, nothing is certain in life, and however desperately we cling to the old order, time in its flight sweeps on in an impersonal way, and often imposes hardship and suffering in its wake.

It takes courage to rise from the ashes of ruined hopes and ambitions, but it must be done in order to survive. Fernie business men have the sympathy of the people throughout the entire west, as is evidenced by the publicity which the collapse of its industry has caused. Yet individual resourcefulness will triumph, and while some will hang on waiting for the inevitable, whatever it might be, others will strike out to seek new fields of labor.

Some people try to cover an awful lot of territory. With quite laudable ambition, they endeavor to keep in touch with advanced thought and methods in every direction. Such a pursuit can be carried to the point where one's own business interests might suffer, and thereby cause unpleasantness or loss to others. It is desirable to be well informed, but it is desirable to do one's own job well. The old saying, "Jack of all trades and master of none" is applicable to many who strive to do this and that and dissipate their energies to their disadvantage.

After all, one's prime duty is to the circle in which he lives and has his being. Usually there is sufficient call on his time and money to leave little to be used further afield. One often sympathizes with people who are deaf, but as one deaf individual expressed his feelings, he was saved from hearing a lot of twaddle that didn't count for anything. Another man confessed that he quit reading daily newspapers because they contained so much crime news that instead of influencing for good, they gave the impression there was more evil than good in the world. Strange as it may seem, it is authentic that this man for years read nothing more than his local newspaper, and admitted that he was happier for it, and that if he could do any good thing it would be to his own community. A narrow point of view, many will exclaim, yet wasn't this man eliminating many useless thoughts and influences from his mind?

That old admonition, first things first, is after all a good precept to follow. As individuals we burn up a lot of energy which benefits neither ourselves or others. He who plans his time in a leisurely

manner accomplishes far more than the harum-scarum type of individual who would create the impression that he is a "go-getter" know everything type of individual. Life is a great puzzle, with its complexities, and however critical one may feel, he must admit it takes all kinds of people to make this world progress. Even jig-saw puzzles may have a place in the general scheme of things.

**Boy Scouts District Council
Meeting Met at Blairmore**

Blairmore, Hillcrest, Bellevue and Coleman were represented at the meeting on Tuesday evening, April 11, presided over by H. O. Westrup, of Hillcrest, and Rev. A. S. Partington, secretary.

It was proposed to hold a dinner at Bellevue Inn on the evening of April 24, at 6:30 p.m. Executive Commissioner Backman will be holding a cubmaster's course that week, and Col. J. H. Woods, of Calgary, who is provincial commissioner, has been invited to address the gathering, to which will be invited parents, members of district councils and those interested in this splendid organization for boys. J. Radford and Mr. Wain were appointed as a committee to make arrangements.

Regarding the annual district camp, letters from the provincial forestry department were read. It was stated that the department would furnish split logs and material to build a cabin sufficiently large to hold meetings, and also for camp cooking facilities.

As to building a dam to form a swimming pool, it was intimated that the forestry department engineer would be in the district possibly before the camp opens, and he would advise the local committee as to construction.

The dates proposed for the annual district camp are the same as last year, July 18 to 28.

Mercoal is Heard From

Mrs. Ashbridge of Mercoal, has a warm spot in her heart for Coleman. She asked that two books of tickets for the electric bridge table draw be sent to her, and a few days later she returned the cash, having sold out. Among those who purchased were several former Coleman people.

Often the voice of criticism is raised because people do not stop to find out the facts. When they learn the truth, they feel like the proverbial ten cents for having allowed their tongues to wag so freely and unthinkingly. The admonition—Stop, look and listen, applies to more things than automobile driving.

ANNOUNCEMENT

The W. M. S. of St. Paul's United Church will hold a tea and home cooking sale in the club rooms on April 22nd from 3 to 6 p.m.

Jasper National Park, Great Alberta Reserve, Is Outstanding Game Sanctuary

Jasper National Park in Alberta, Canada, is today one of the greatest wild life sanctuaries in the world. Here, in an area of 4,200 square miles, many species of wild life are free from human molestation. At the time white men first entered this region, a little over a century ago, big game was plentiful. Bighorn sheep and Rocky Mountain goat fed on the hillsides, deer and elk ranged the valleys, and the flocks of wild geese were frequented by buffalo. The whole country was a rich hunting ground for both white men and Indians.

When Jasper National Park was set aside in 1907, by the Government of Canada to meet the recreational requirements of the people and to serve as a refuge for the native fauna, great inroads had been made in the wild life by hunters. As a result of the establishment of sanctuary conditions the preservation of the different species of wild life indigenous to that region has been assured, and now hunters may feel confident of having an unfailing supply of game in districts adjacent to the park.

One of the chief attractions to visitors at the present time is the variety of wild life which may be seen along the motor highways and trails in the park. Bear, moose, deer, bighorn sheep and mountain goat may frequently be seen from a car, while caribou may generally be sighted in the high open passes of some of the nearby mountains.

In recent years there has been a remarkable increase in the number of the park. It is estimated that the number of bighorn sheep has doubled within the past few years in the Athabasca Valley. They are especially numerous at Pechonahs, Inter-laken, Brazeau River, Snake Indian Valley, Moose Horn Creek, Southfork River. Rocky Mountain goat are numerous and are spreading to new ranges in the park. The largest herds of these animals are to be found at Shale Banks, Smoky River, Colin Range, Maligne Lake, Whistler Mountains and Circus Valley.

Elk, Moose, Deer and Caribou are seen in large numbers throughout the park. The elk, which had so nearly been exterminated a few years ago, have increased to such an extent that they are extending their range in many directions. Reports state that they have been seen as far west as McBride, British Columbia, on the Canadian National Railways, which is one hundred miles west of the park. Moose are also increasing in numbers, especially in the northern part of the park, which is heavily timbered and well suited to the needs of this animal. Deer in the park are rapidly increasing in numbers. Caribou are spreading throughout the park and overflowing from the Smoky River area into British Columbia.

Women Have Pet Aversions

But Dislike Of Job Usually Varies With Individual

Every housewife has a pet aversion among her duties. This hated job varies with the individual. Such were conclusions of the members of the Women's Institute of Burton, England, which has just completed a survey on housekeeping. The president was positive about her aversion. It was getting up in the morning. Other dislikes were cleaning windows, spring cleaning, "chopping wood, washing up, washing one's hair, darning, patching, cooking, cleaning boots and shoes and tidying grass." Three agreed that skinning rabbits was the worst. Two others said it was cleaning chickens. Another disliked keeping meals waiting, and an old lady declared that she "detested everything."

The value of livestock on farms in Canada is officially estimated at \$375,722,000 for 1932 and farm poultry at \$34,735,000.

Zoo Loses Ancient Tortoise

Fluo Ends Career Of 150-Year-Old Reptile

London papers record the death from influenza of Sopa, the giant female tortoise at the Zoo. There is no doubt that her registered age, one hundred and fifty, is correct; there had been carved upon her undershell the year of the Peace of Versailles, 1783. This three-hundredweight reptile had been ill for some weeks. Recently pneumonia developed, and has now claimed her at her prime. The animal was a native of Galapagos Islands, off the coast of Ecuador.

In spite of her death, Sopa will continue to be an object of interest, since she is to be mounted for exhibition purposes in the galleries of the Natural History Museum at South Kensington.

JAUNTY SNAITNESS IN COAT- DRESS WITH A NEW BROAD- ENED SHOULDER LINE

It's the sort of stunning little dress you can wear and wear, and feel smart in.

It slips easily under a coat and is as smart as paint without one of the warm Spring days arrive.

You'll have guessed that the original was in beige rough crepe with quite daring navy crepe for the collar, button and the girdle.

If navy blue crepe is your choice, it's just as snappy with coral-trim.

Grey checked woolen weave is chic, with plain toning grey crinkly crepe silk collar and worn with a wide grey leather belt.

Style No. 558 is designed for sizes 14, 16, 18, 20, 22, 24, 26, 28 and 40 inches bust.

Price of pattern 20 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Record Not Very Good

Ninety-Seven Per cent. Of Anglo-Saxons Have Infected Teeth

Anglo-Saxons have a decidedly bad teeth record, Dr. Harry Thomson, field secretary for Canada of the Dental Hygiene Council told the Toronto Health League.

Preventive dentistry, the speaker said, is a health measure and began only 83 years ago when the first extraction dentist hung out his shingle in Baltimore. Prior to that time the apothecary and the blacksmith attended to those teeth which ached their owners into drastic removal measures. Extraction was followed by the policy was to save everything in the mouth. Bridges and crowns flourished as dentistry supreme. Then came the X-ray which led to the discovery that 10 per cent. of disease is caused by infection and that 70 per cent. of the infection begins in the mouth, and goes via the blood to the weak parts of the body.

Dr. Thomson mentioned among the diseases most frequently attributed to infected teeth anæmia, rheumatism, tuberculosis and some heart diseases. Prevention of decay was most important, the speaker said, and stressed the wisdom of inculcating health habits in the first seven years of a child's life.

A survey had shown that 97 per cent. of the Anglo-Saxons have decayed teeth, 64 per cent. of the Central European, the Maori of New Zealand only 1 per cent. and the Eskimo only 3 per cent.—and decayed teeth in the children of these two latter races is unknown. Scientists have been forced to the conclusion, Dr. Thomson said, that good teeth are the product of foods eaten in their natural state, with all the essential minerals.

Eskimos Drink Alcohol

Civilization Ravaging Natives Of Victoria Island

"Civilization" is ravaging the Eskimos of Victoria Island. They have taken to drinking denatured alcohol, according to the report of Corporal Wall of the Royal Canadian Mounted Police.

In paying inter-tribal calls, this poison and methyhydrate are among the aperitifs passed around. The corporal fears if the practice continues it will seriously endanger the health of the natives.

Some redeeming features are noted, however. The influence of the missionaries is strengthening, and the Eskimo pride themselves not only in their hymn-books, but in their ability to sing these hymns.

"They observe Sunday very closely and will not do a thing, spending most of the day singing hymns, even if the camp is out of meat."

Humanitarian influences are now being borne in on the natives. Corporal Wall noted the average of the Eskimos families was three children, of whom there were as many girls as boys. The practice of letting the girl babies die in infancy is dying out, he says.

A young pig weighing two pounds at birth, will weigh 200 pounds at six months, if properly fed.

White Leghorn stock from British Columbia has been shipped as far distant as Cape Town, South Africa.

"The wise carry their knowledge as they do their watches, not for display, but for their own use."

Art Treasures Moved

Chinese Afraid Museums In Peiping Might Be Damaged

Twenty per cent. of the art treasures of the Palace Museum in Peiping, once the property of Chinese and Manchu emperors, have been taken for safe keeping to Kai-feng and Loyang-fu, in Honan Province, two cities which were both at one time imperial capitals of China. It is possible that museums may be opened in the Honan cities, where the public may observe the art objects of Old China.

The museum's treasures were moved because it was thought that if the Sino-Japanese conflict were extended to Peiping, it might cause damage to the museums there. The task of moving all the treasures was too great, so that only one-fifth were transported. Even so, 3,000 packing cases and two trains of 24 cars each were used.

The Palace Museum in Peiping has so many art objects that it cannot display more than 10 per cent. at one time. It has been suggested for some years that the treasures be divided, and other Chinese cities be given the privilege of having a share for museums. But Peiping residents have vigorously protested such suggestions. They have argued that the palace of the emperors who gathered the collections form an ideal setting for their exhibition.

But now that one-fifth of the art objects have been taken from Peiping, it is doubtful if they will be returned. They are more likely to grace museums in other Chinese cities.

Refuge For Jews

Immigration Into Palestine Is An

Sir Philip Cunliffe-Lister, secretary for colonies, states that immigration into Palestine must be governed by the economic absorptive capacity of that country, and that this principle cannot be departed from.

He had been asked in the British House of Commons whether, in view of the position of Jews in Germany, restrictions on immigration into Palestine would be relaxed for the benefit of refugees.

He pointed out, however, that administration of the immigration laws lies with the high commissioner of Palestine and that the Palestine executive and the Jewish agency may make any representations they wish to the high commissioner.

See Editions Of Miles

Two Hundred-Inch Lens Being Made In California College

Machinery is being installed at Pasadena, California, to grind and polish a mirror which will enable scientists to peer billions of miles farther into space than man has seen before.

The machinery will be housed in a huge, heavily insulated room of the optical shop nearing completion at the California Institute of Technology. The mirror, 200 inches in diameter, will be a part of the telescope to be built by the institute.

The largest now in use is the 100-inch reflector of the Carnegie Institution's observatory on Mount Wilson.

Lecturer (describing his latest expedition in lengthy detail)—"Coming out of the jungle I was confronted by a yawning chasm."

Bored Stud—"Was it yawning before it saw you?"

Work of Canadian Plant Breeders In Improving Quality of Wheat An Epic of Scientific Achievement

Dentists In Olden Times

Artificial Teeth Were Familiar In Time Of Caesars

Dentists played an important role in the ancient civilizations of Egypt, Assyria and Peru, according to Dr. Leroy M. S. Miner, dean of the Harvard Dental School.

Excavations among the Incas remains in Peru, Dean Miner said, revealed that the teeth of the Incas were ornamented with thin gold discs.

In Ecuador, teeth were almost entirely covered by an overlay of gold. In ancient Mexico and India, they were commonly adorned with turquoise and other precious stones.

In an Egyptian document nearly 3,000 years old, archaeologists found remedies for toothache and for tightening loose teeth, and in the ruins of Nineveh was found a clay tablet, 2,500 years old, in which a court physician recorded his diagnosis of a royal toothache.

"By the time of the Caesars," declared Dean Miner, "artificial teeth were familiar." The Roman poet Martial noted with a sarcastic eye the efforts of the beauties of the day to maintain their charms and remarks that "the belle lays down her teeth at night just as she does her silken robes."

"In another place he unkindly remarks that 'she now has removable teeth and would have removable eyes if they were for sale'."

Has Ancient Lineage

Greyhound Probably Oldest Of Dog Family In World

The greyhound can boast of a very ancient lineage, and is probably the oldest of the dog family in the world. It figures on Egyptian frescoes of the early Pharaohs, and was used for coursing by Greeks. A fine Antioch sculpture in the British Museum of two greyhounds proves that they were appreciated by the Romans. Greyhounds were favorites with almost all English kings, from Canute to Charles the First, and King John repeatedly took greyhounds instead of money for payment of the penalties he inflicted. Until modern times the greyhound was an aristocratic dog which only "gentlemen" freeholders were permitted to keep. A trace of this regulation can be found in the fact that in England until 1853 a special tax of twenty-two shillings each was levied on greyhounds to place them beyond the reach of all except the favored few.

Notice Availed Nothing

Idea Of English Vicar Did Not Save His Apples

A vicar who had a nice orchard attached to his vicarage was rather perturbed when he learned that soldiers were coming to camp in the field close by. He put a card against one of the trees with the inscription: "Please do not touch the apples. We want them for the Harvest Festival."

The soldiers arrived, and the next day when he went to the orchard he found that all the fruit had been stripped from the trees. The card had been reversed, and the following substituted for what he had written:

"All is safely gathered in, ere the winter storms begin."

"The contributions made by Canadian plant breeders in the form of superior varieties of field crops stand almost as an epic in the realm of scientific achievement," stated L. H. Newnam, Dominion Cereals for the Canadian Government. Experimental Farms, in a recent address broadcast over a chain of Canadian radio stations. "These contributions," he continued, "reveal a story of nearly half a century of determined effort, replete with discouragement and disappointment but ultimately rewarded with enormous gain."

"The most important plant-breeding contribution made thus far in Canada has been in connection with the development of varieties of wheat capable of thriving under conditions which characterize much of the great wheat-growing plains of Western Canada."

"While the creation of an early-ripening, high-yielding variety of wheat of good quality has been a major objective of the Canadian plant breeder for many years, more recently he has been grappling with another problem of equal if not even greater importance. This consists in an attempt to combine in one variety the yielding ability and baking quality of such varieties as Marquis with the ability possessed by certain non-bread wheats to resist the attacks of that dread enemy of the wheat grower, the disease known as wheat stem rust. This work, which is centered largely at the Canadian Government Rust Research Laboratory at Winnipeg, seems to be progressing rapidly toward the desired goal and it is confidently expected that within the next two or three years the momentous announcement will be made that a new rust-resistant wheat of high quality and good yielding ability is available for propagation by farmers in the affected districts."

A Record High Tide

Damaged Old Fortress That Resisted Wolfe's English Invasion

The rock-ribbed old fortress that stubbornly resisted Wolfe's English invasion has fallen before the onslaught of a storm that drove huge seas into Louisbourg's sheltered harbor, in Nova Scotia.

A record high tide breached a gravel barrier for the first time in 177 years and flooded a large part of the ancient fortifications, lapping the base of the famous French hospital in the fortress grounds. The approach roadway to the west gate of the fort was practically ruined, and it is expected that restoration work on the remainder of the fort will have to be halted this year to allow it to be repaired.

The last recorded occurrence of the kind took place in 1756—two years before Wolfe took Louisbourg and caused the French authorities much trouble. Sentries had to be withdrawn because the water rose up to their waists.

Not Much Of A Success

Airplane Wedding Was Found Too Noisy For Comfort

Marriage in an airplane may be a novelty, but it is not romantic, according to Mr. and Mrs. James Couse, maker, who were wed high above Sydney, N.S.W. The bride and groom took off from the aerodrome prepared to have their wedding broadcast to the world. The plan to switch off the airplane engines during the ceremony, was found impracticable. Rev. H. Mills, of the Dulwich Hill Congregational Church, had to shout, the bride and groom had to shout their "I wills," and the radio announcer almost shouted "himself hoarse."

"Very true," replied the doctor, "but tell me what we must do before we die."

"We must get sick," said Willie, "and send for you."

Christie's Premium Soda Crackers are served in the best restaurants.

Churchill Townsite Opened

Plan Prevents Any Speculation In Town Property

Since 1927 Churchill has been a gigantic construction camp, but it now enters upon its career as terminal port of the Hudson Bay route. Ample space is reserved at the port for railway, harbour and other Dominion services. The townsite proper is owned by the Province of Manitoba, whose government has planned the town.

In the provincial legislature recently it was announced by the Minister of Natural Resources, that applications are now being received for town lots. Ownership of these lands will be retained by the Government; lots will be leased, not sold. Prices are \$100 a year for business lots and \$25 for residential, rents to be subject to revision at the end of ten years. After twenty years, revision of rental will take place only once in ten years. Lessees will be required to build within a year. Plans of buildings are to be subject to approval of the authorities, and construction is to be begun only after permit has been obtained. Buildings must be highly fire-resistant and insulated against cold. Transfer of lease will be subject to official approval.

Thus will be brought into effect the policy indicated from the time when Churchill was chosen as the port, that of continued public ownership of the land, and lease, not sale, of lots. This policy has made impossible traffic in town lots which otherwise might have become active in view of the high hopes entertained of the success of the new route and of the fact that about forty-five millions of dollars have been expended in railway and harbour construction.

Offers Programs To Canada

U.S. National Broadcasting Company Would Make No Charge

The National Broadcasting Company of United States has offered the Canadian radio broadcasting commission all its sustaining programs free of charge. Hector Charlesworth, chairman of the commission, said that this tangible evidence of co-operation on the part of the U.S. broadcasting company would be of material aid to Canada.

"Sustaining" programs are those containing no advertising and are used to fill the gaps between commercial programs.

Little Sophie—"Father, what is executive ability?"

Professor Broadhead—"The faculty of earning your bread by the work of other people."

The provinces of Nova Scotia and New Brunswick have soil and climatic conditions very favorable to the production of the cranberry.

SIMPLY WORN OUT?

Take Lydia E. Pinkham's Vegetable Compound

Can anything be more wearing for women than the constant round of household duties? You have no time to be sick... you are tired... yet cannot stop. There comes a time when something must be done for yourself simply worn out.

Lydia E. Pinkham's Vegetable Compound will help you. Its tonic action will give you renewed strength, and will make your daily tasks seem easier to you.

98 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today... and watch the results.

'Native Surgery'

Eskimos Have Own Method Of Treating Surgical Cases

Native surgery among Eskimos of Baker Lake, in the North West Territories, may not conform to the standards of Canadian universities—but it is effective. Or, is it? Let the Canadian Mounted Police tell its own story.

Corporal Nichols, of the Baker Lake detachment, lying forth on a surveying expedition through hills, heads wind and ground drift, arrived at an Eskimo encampment somewhere in the neighborhood of Chesterfield Inlet. In the camp was the 12-year-old son of Neuktuk, wearing a bandage around his neck. Corporal Nichols reports:

"Looking closer I found this bandage to be the skin of a bird placed against a healed-up cut. Neuktuk informed me that the lad had had a swelling in the neck, so he (Neuktuk) jabbed his pocket-knife into the swelling to let the air out. The wound, despite much dirt, had healed. The swelling no further attention."

The constable adds if this had occurred to a white person, "serious complications would have set in."

Should Grow Barley

Canada Must Concentrate On High Grade Feeding Barley

"Canada must concentrate on high-grade feeding barley if she would expand her share of the world barley market," states Professor H. C. Grant on behalf of the Manitoba Department of Agriculture in a barley survey issued by the Empire Marketing Board.

Figures showed the world's consumption of barley since 1909 had considerably decreased and Canada was having a more difficult time than other Empire countries in disposing of her surplus crop.

Since the war there had been a competitive struggle for first place in the barley trade between Canada, United States and Rumania, with Russia coming once more rapidly to the fore. "Her progress is in great part," declares the survey, "due to the ruthless lowering of prices, regardless of cost, in order to secure the market."

Just How It Happened

Railway Man's Description Of Accident Not Clear To Nurse

An engine fireman with an injured foot was hurried to the hospital. After his wound had been treated the nurse asked how the accident happened. He replied:

"You see, ma'am, it was this way. I was shunting for the company in the garden and I had only one snake working with me. He was standing on the goat's back porch ready to cut off a big battishead, and she was a heavy one. I was giving the eagle-eye a washout and yelling to the stinger to 'Stop, stop,' but he gave the jack's boss a quick come-along. And my foot was caught in a frog, so here I am."

"Yes," the nurse responded, "but I don't quite understand."

"Neither do I," said the shanty loafer. The darn fools must have all been crazy.—Canadian National Railways Magazine.

Cars and Tractors On Farms

Number Has More Than Doubled In Last Ten Years

Automobiles and motor trucks on farms more than doubled in the 10-year period 1921-31, says a report of the Dominion Bureau of Statistics. There is one automobile for every 2.27 Canadian farms.

Farms reporting tractors increased from 43,578 to 97,176, an increase of 123 per cent.; tractors increased from 47,455 to 105,269 or 121.8 increase. There is one binder for every 1.69 farms, and one threshing machine for every 9.84 farms.

One farm in 6.08 has a radio, one in 3.11 has a telephone, one in 12.0 has water piped in the kitchen and one in 20.17 farms has water piped in the bathroom.

Church Helped Needy

Two carloads of food from Ontario to Saskatchewan, and a total of 3,500 Christmas gifts were sent to children in new communities of northern Ontario, as a result of the efforts of the Board of Evangelism and Social Service of the United Church, the board was advised in session.

Over-sleeping is said to cause bad temper. Early to bed and early to rise.

Old Lady (to policeman)—"I've lost my canary. Would you mind potting, the flying squad?"

WHOLE FAMILY WITH INDIGESTION

A mother of four writes:—"Myself and family of four all seemed to suffer from acidity, pains in the back, and other forms of indigestion. I suffered whatever I ate. But since we have been taking Kruschen (for the last three months) we can eat anything, and all enjoy our food much better. We never have a trace of acidity or pain now. I think it is wonderful—it has no upsetting results. Whatever we eat goes to go without, we could not give up Kruschen." (Mrs.) M.K. Kruschen Salts swiftly neutralizes acid, takes all the torment out of it, and gently expels it from the system. And by stimulating your organs of elimination to perfect regular action, Kruschen will prevent this harmful acid from ever accumulating again. After that you'll experience no more pain after your meals. Kruschen will keep your inside clean and serene. Pure and invigorated blood will be sent coursing to every part of your body. You'll feel wonderfully energetic and well. As healthy and hearty as it is humanly possible to feel.

Vested With Authority

Saskatchewan Sheriffs May Issue Debt Action Permits

All sheriffs in the various judicial districts of Saskatchewan have been vested with authority to issue permits in connection with small debt actions under the new Debt Adjustment Act passed in the recent session of the legislature.

Proceedings under land agreements, foreclosure actions and cases of that class will be dealt with by the debt adjustment board, of which A. Hosie is chairman.

Although the definite policy respecting the operations of the board has not yet been decided, it is probable that it will hold sittings at Saskatoon as well as Regina.

There are 17 sheriffs appointed under the order-in-council, and official notification of these appointments have been mailed to the various offices in the province.

The judicial districts of Moosemin and Arcola have no sheriffs, the work being conducted by deputy sheriffs. Deputy sheriffs are not included in the appointments.

Little Helps For This Week

"Wait on the Lord, be of good courage and He shall strengthen thee: wait, I say on the Lord."—Psalm 27: 14.

"He giveth power to the faint, and to them that have no might He increaseth strength."—Isaiah 40: 29.

Should we feel at times disheartened and discouraged, a confident thought, a simple movement of heart towards God will renew our powers. Whatever He may demand of us He will give us at the moment the strength and the courage that we need to overcome.

We require a certain firmness in all circumstances of life, even the happiest, and perhaps contradictions come in order to prove and exercise this. If we can only determine so to use them, the very effort brings back tranquility to the soul, which always enjoys having exercised its strength in conformity to duty.—Wm. van Humboldt.

An Interesting Exhibit

Exact Replica Of Standard Elevator For World's Grain Show

An exact replica of a standard grain elevator will be one of the interesting exhibits at the forthcoming World's Grain Show at Regina. The exhibit will form part of the display of the Seattle Grain Company and the model will be constructed by the company's building superintendent.

The model will include every detail of machinery, legs, dump and spouting. It will be built to scale and will be operated by an electric motor with many of the parts made by hand.

The Easiest Way

The Fort William Times-Journal says one of the reasons why the world is so loaded down with debt is that it is so much easier to seek for new forms of taxation than to study the mentalities of the people. The fellow who gave a note in settlement of an account and then murmured, "Thank God that's paid."

The number of head of cattle in Canada last year is estimated at 8,511,000, a gain of more than half a million head over the previous year.

Opening the door of a refrigerator raises the temperature from one to three degrees.

Quality Cattle For Market

Red Label Beef Association Of Southern Alberta

The Government of the Province of Alberta has recently introduced a new feature in connection with the marketing of cattle. This feature is the marking of live cattle for market with a registered trade mark on each animal. The trade mark will be "RL" in a six-inch circle in red paint and will stand for "Red Label." The Red Label Beef Association of Southern Alberta has secured a Federal Government trade mark for Red Label beef animals. The trade mark can only be used on animals which grade up to a certain standard and the development is expected to be particularly important in the marketing of Alberta cattle in Great Britain.

Another report from the Alberta Department of Agriculture states that the Province had a heavy year in hog marketing in 1932 and has come to be recognized as one of Canada's principal hog-raising provinces. More than 1,000,000 head, or over 34 per cent. of the total for all Canada, went to market last year from farms in Alberta, an increase in the provincial proportion from 25.63 per cent. three years ago. Last year 580,000 head of live hogs were shipped out, mostly to Eastern Canada, and 425,000 head were slaughtered within the province.

THE RHYMING OPTIMIST

By Alice Michalco

LET MUSIC SPEAK

And now let music speak, for it can bring
To life again all joyous things gone by,
Can paint the rose petals of the spring
And show the sparkle in youths' happy eye.
And it can summon with prophetic voice
The glad and tranquil spirit yet to be,
Can lead the doubting spirit to rejoice
As song soars up on wings triumphant, free.

Let music murmur softly to you now
And it will soothe away the hurt, the sting,
As some loved hand upon a weary brow
Can charm life's hopes to fresher blooming.
It is a voice less human than divine,
And wakes an echo in the soul's pure shrine.

Art Treasures Destroyed

Fire In Montreal Home Of Late Sir William Van Horne, Causes Heavy Loss

Art treasures valued at \$500,000 were destroyed by fire in the home of the late Sir William Van Horne at Montreal recently. The Van Horne collection in its entirety has been valued at \$1,250,000.

Miss E. Van Horne, elderly daughter of the noted railwayman, was forced to flee from the state residence on Sherbrooke Street. Two firemen were slightly injured in the two-hour fight to subdue the outbreak.

For Creamed
SOUPS and SAUCES

You have not had it. Charles Mills you will be surprised at the improved flavor it adds to cream soups and sauces. It is handy and economical too. Write for free samples of this delicious food that you can't keep handy all winter.

Borden's
ST. CHARLES MILK

UNSWEETENED, UNBLENDED

The Silver Lining

Future Holds Better Things Than Victorian Age Could Imagine

"Have you ever thought that although every type of luxury and labor-saving device is available in our homes, our houses lack the comfort of those of Victorian days?"—Sir Mark Webster (Jenkinson). There is something to be said for a draughty place against a warm hutch, something to be said for the comradeship of large families, something to be said for very square meals—sirloins and ginger puddings—for grand pianos, for four-posters, for thick carpets, and for plenty of head-room and elbow-room. And there is much to be said for the spirit which went with them, the feeling of security and comfortable future. Our age is one of flats and small houses, of most of the comfortable discomforts described by Sir Mark Jenkinson, and we live in a most Georgian discomfort of mind. But when the last thunder has rumbled, the last shower finished and we come into a cool, clear world again, we will build houses for ourselves of a comfort and convenience of which Sir Mark's Victorians never dreamt.—Leeds Yorkshire Post.

Earthquakes Predicted

Look For Earth Tremors In The Region Of Great Lakes

Severe earthquakes in the Great Lakes region and the St. Lawrence Valley are almost certain to come, in the opinion of Prof. William Herbert Hobbs, University of Michigan geologist. Prof. Hobbs also forecasts shocks for the lower Mississippi Valley and southeastern states.

In an interview, Prof. Hobbs said scientists can name the places but not the times of future earthquakes.

Chinese universities buy an average of 50,000 volumes annually from a London bookstore, which has customers in every country.

Hens require a well-balanced ration and a good supply of drinking water to ensure good egg production.

An inter-island air service has just been inaugurated in the Philippines.

FOR ANY PAIN

Have you ever found any quicker relief than this?

Anyone can take Aspirin, for doctors have declared these tablets perfectly safe.

And there is no quicker form of relief for any pain.

It is well to remember these things when anyone tries to persuade you to try anything in place of these tablets.

Aspirin may be taken as often as there is any need of its comfort: to stop a headache, throw off a cold, drive away the pains from neuralgia, neuritis, rheumatism, lumbago, etc.

Whenever you take Aspirin you know you are going to get immediate results—and you know there will be no ill effects. You know what you are taking.

Why take chances on some form of relief which may not be as swift—may not be as safe? The new reduced price on bottles of 100 tablets has removed the last reason for ever experimenting with any substitute for Aspirin!

Aspirin is a trade-mark registered in Canada

LOCAL AND GENERAL

Buy advertised goods. Buy from our advertisers who invite your business.

Harry Clifford came down from Corbin on Friday to spend the week-end visiting his mother.

Alphonse Tibergien was a week-end visitor, coming in from Corbin on Friday afternoon.

Advertising pays, judging by the brooms sold by Ledieu's store in its week-end specials.

Several of the members of Coleman Caledonian Society recently went to Bellevue on request from interested parties of that town, and helped to organize a Caledonian Society there.

Mr. and Mrs. John Curry of Bellevue, with their sons, were visitors in Coleman on Monday evening and attended the recital given by Mr. W. J. Harris in St. Alban's hall.

During the night of Sunday, April 9, the temperature dropped to zero, as registered by the International thermometer the following morning. This is a very low temperature for this month.

Easter Services at United Church

Next Sunday marks the joyous anniversary of Easter. It is a day that ought to be characterized by abounding hope and joy. These services will radiate a spirit of victory and enthusiasm which every Christian believer ought to manifest on this Day of Days when Jesus conquered the last enemy—Death.

The morning service will feature the singing of Easter hymns with a special selection by the junior choir. The minister will speak briefly on "The Message of Easter." A reception of members will be held and the Sacrament of the Lord's Supper will be administered.

The evening service promises to be one of interest and will be largely musical. Artists from Coleman and Hillcrest will provide an hour of music, instrumental and vocal. The minister will have a brief message.

Will you come and make these Easter services memorable? Come with us and we will do these good.

To H. W. Clark goes the credit for selling the largest number of tickets for the electric bridge table, with 98 tickets sold. Thanks, Harry! and to those who bought. Tickets were sold as far afield as Calgary, Edmonton, Regina and Saskatoon from books sent out by F. H. Graham to some of his old friends among the railway mail clerks.

The ticket selling campaign for the Citizens League carnival May 23-24-25 is well under way. Three grand prizes, a General Electric Radio, Maytag electric washer and a handsome Chesterfield suit make a strong appeal as prizes, and ticket sellers report good sales quite early in the campaign. All money raised is for community purposes, and the prizes are being sold to the carnival committee at cost.

You derive more satisfaction by jumping in and doing things for your town and its organizations and its churches than by sitting aside and criticizing those who do step out and raise some money to keep things going. Every city and town has plenty of both types.

Easter Flowers

Rapid Delivery

Rapid service in the delivery of flowers is a feature with us. In town the delivery is, of course, very rapid, within an hour or two, depending on the order. To out-of-town customers the twenty-four trains a day and daily rural mail service insure prompt delivery.

Orders received by phone, or mail are as carefully attended as an order placed in person. Phone, write or call. We can serve you faithfully.

Chevrolet for 1933 Reveals New Style

WELL-KNOWN CANADIAN SIX HAS AIR-STREAM DESIGN AND MANY OTHER IMPROVEMENTS

Canadian to a greater degree than ever stream design makes these cars among the most beautiful on the market. Fibre No-Drift Ventilation, one of the greatest closed car advancements of the year, may interest features. New air- is standard equipment. Mechanically, the Chevrolet Six is much improved. Picture above shows the beautiful standard coach. Below, at the left, a view of the front end. At the right, the rear quarter, showing the graceful air-stream lines and skirled fender.
